

STAGE 4 INTRODUCTORY ELECTIVE - INDUSTRIAL TECHNOLOGY (TIMBER INDUSTRY)

Footstool | 50-period teaching program

2027 early-implementation review copy | Industrial Technology 7-10 Syllabus (2025) | v2.0

Course	50-period introductory unit within a 100-hour elective	Syllabus	Industrial Technology 7-10 (2025)
Delivery	2027 20 weeks 50 x 60-minute periods	Pattern	5 periods per fortnight
Lesson balance	10 Site/theory 10 Project/folio 30 Practical	Implementation	Early implementation confirmed by Steve, 28 Aug 2026
Official source	NSW Curriculum official page verified 28 Aug 2026	Focus	Project development + Timber industry
Status	Local teacher review copy Word, PDF and manifest v2.0	Course hours	Pair with sufficient additional study to complete 100 hours
The official Stage 5 outcomes appear below. Stage 4 adjustment advice is recorded separately and is not presented as an outcome code. Period rows identify the outcomes directly supported by this 50-period unit. INT5-IND-01 is not claimed as delivered by the current site and must be mapped in the additional study that completes the 100-hour elective.			

Official Stage 5 outcomes

Outcome	Exact official wording	Outcome	Exact official wording
INT5-SAF-01	applies risk management and safe work practices in industrial technology contexts	INT5-EVL-01	evaluates the functional, aesthetic, economic and environmental qualities of products
INT5-COM-01	communicates ideas and processes in industrial technology contexts	INT5-INP-01	analyses and applies a range of industrial processes in production contexts
INT5-ENV-01	assesses the impact of industrial activities and practices on society and the environment	INT5-PRO-01	demonstrates practical skills in the production of projects
INT5-DES-01	selects and applies design, project management and technical skills in project production	INT5-IND-01	investigates and explains a range of industry careers, enterprise opportunities and practices
INT5-USE-01	selects and justifies the use of materials, tools and equipment to undertake projects		

What students are learning

Learning focus	In plain English	Learning focus	In plain English
Safe work	Recognise hazards, follow current controls and use approved workshop methods.	Materials, tools and equipment	Explain suitable choices and use only teacher-approved tools and equipment.
Communication	Use terminology, drawings, images and written evidence to explain the project.	Evaluation	Judge function, appearance, quality, cost and environmental impact using evidence.
Environmental responsibility	Compare material and production choices and their effects on society and the environment.	Industrial processes	Explain how timber processes and quality checks contribute to production.
Design and project management	Develop, plan, manage and refine the Footstool project.	Practical production	Apply safe, accurate and quality-focused practical skills to the approved project.

Teacher-to-confirm register

When	Decision needed	Confirm by
Before the unit	Confirm how this 50-hour unit contributes to the school's elective structure and any 100-hour course	Head Teacher TAS / school
Before assessment	Task authority, outcomes, marks, dates, conditions, adjustments and submission method	Teacher / faculty
Before practical work	Current plan, permitted variations, induction, SOPs, tools, PPE, supervision and risk controls	Teacher / faculty

Before finishing

Approved finish, SDS/product instructions, area, drying and storage arrangements

Teacher / faculty

Teaching program | Periods 1-10

10 x 60-minute lessons. Site/theory and Project/folio labels link to the relevant website destination.

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
1	Site/theory	Shared workshop conduct	Complete 10 checks and the guided response.	Follow WHS rules and procedures in design and production Outcomes: INT5-SAF-01	Check 10 responses and the guided response.
2	Project/folio	Hazards, risks and controls	Complete 10 checks and the guided response; save linked folio evidence.	Risk-management principles and risk-reduction procedures Outcomes: INT5-SAF-01	Check 10 responses, the guided response and the folio.
3	Practical	Readiness and asking for help	First 20 min: complete 10 checks and the guided response. Then continue the approved practical stage.	Safe workshop practices with materials, tools and equipment Outcomes: INT5-SAF-01, INT5-PRO-01	Check the site response; observe the practical and one quality point.
4	Practical	Weeks 1-2 production	Continue approved stage; follow plan/SOP; check fit, accuracy or surface.	Safe workshop practices during timber production Outcomes: INT5-SAF-01, INT5-PRO-01	Observe setup, approved process, skill, quality and clean-down.
5	Practical	Weeks 1-2 evidence	Finish current stage; photograph a checkpoint; record any problem/response; clean down.	Quality checks before, during and after production Outcomes: INT5-EVL-01, INT5-INP-01, INT5-PRO-01	Check the photo, quality note and problem-response record.
6	Site/theory	Tool recognition and broad purpose	Complete 10 checks and the guided response.	Recognise timber tools and their broad purposes Outcomes: INT5-USE-01, INT5-COM-01	Check 10 responses and the guided response.
7	Project/folio	Measuring and marking references	Complete 10 checks and the guided response; save linked folio evidence.	Accurately measure and mark out timber Outcomes: INT5-USE-01, INT5-PRO-01	Check 10 responses, the guided response and the folio.
8	Practical	Safe tool decisions	First 20 min: complete 10 checks and the guided response. Then continue the approved practical stage.	Safe workshop practices with materials, tools and equipment Outcomes: INT5-SAF-01, INT5-PRO-01	Check the site response; observe the practical and one quality point.
9	Practical	Weeks 3-4 production	Continue approved stage; follow plan/SOP; check fit, accuracy or surface.	Safe workshop practices during timber production Outcomes: INT5-SAF-01, INT5-PRO-01	Observe setup, approved process, skill, quality and clean-down.
10	Practical	Weeks 3-4 evidence	Finish current stage; photograph a checkpoint; record any problem/response; clean down.	Quality checks before, during and after production Outcomes: INT5-EVL-01, INT5-INP-01, INT5-PRO-01	Check the photo, quality note and problem-response record.

Teacher to confirm before use: Periods 1-10 practical activity, materials, equipment, supervision, current risk controls and any formal assessment conditions.

Teaching program | Periods 11-20

10 x 60-minute lessons. Site/theory and Project/folio labels link to the relevant website destination.

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
11	Site/theory	Hardwood and softwood language	Complete 10 checks and the guided response.	Compare hardwood and softwood properties for suitable use Outcomes: INT5-USE-01, INT5-COM-01	Check 10 responses and the guided response.
12	Project/folio	Grain, knots and density	Complete 10 checks and the guided response; save linked folio evidence.	Compare hardwood and softwood properties for suitable use Outcomes: INT5-USE-01, INT5-COM-01	Check 10 responses, the guided response and the folio.
13	Practical	Workability and material description	First 20 min: complete 10 checks and the guided response. Then continue the approved practical stage.	Compare hardwood and softwood properties for suitable use Outcomes: INT5-USE-01, INT5-COM-01	Check the site response; observe the practical and one quality point.
14	Practical	Weeks 5-6 production	Continue approved stage; follow plan/SOP; check fit, accuracy or surface.	Safe workshop practices during timber production Outcomes: INT5-SAF-01, INT5-PRO-01	Observe setup, approved process, skill, quality and clean-down.
15	Practical	Weeks 5-6 evidence	Finish current stage; photograph a checkpoint; record any problem/response; clean down.	Quality checks before, during and after production Outcomes: INT5-EVL-01, INT5-INP-01, INT5-PRO-01	Check the photo, quality note and problem-response record.
16	Site/theory	The engineered-wood idea	Complete 10 checks and the guided response.	Types and uses of timber stock and manufactured boards Outcomes: INT5-USE-01, INT5-ENV-01	Check 10 responses and the guided response.
17	Project/folio	Layers, particles and fibres	Complete 10 checks and the guided response; save linked folio evidence.	Production, use and environmental impact of manufactured boards Outcomes: INT5-ENV-01, INT5-USE-01	Check 10 responses, the guided response and the folio.
18	Practical	Responsible material comparison	First 20 min: complete 10 checks and the guided response. Then continue the approved practical stage.	Sustainable materials, technologies and project practices Outcomes: INT5-ENV-01, INT5-DES-01	Check the site response; observe the practical and one quality point.
19	Practical	Weeks 7-8 production	Continue approved stage; follow plan/SOP; check fit, accuracy or surface.	Safe workshop practices during timber production Outcomes: INT5-SAF-01, INT5-PRO-01	Observe setup, approved process, skill, quality and clean-down.
20	Practical	Weeks 7-8 evidence	Finish current stage; photograph a checkpoint; record any problem/response; clean down.	Quality checks before, during and after production Outcomes: INT5-EVL-01, INT5-INP-01, INT5-PRO-01	Check the photo, quality note and problem-response record.

Teacher to confirm before use: Periods 11-20 practical activity, materials, equipment, supervision, current risk controls and any formal assessment conditions.

Teaching program | Periods 21-30

10 x 60-minute lessons. Site/theory and Project/folio labels link to the relevant website destination.

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
21	Site/theory	Views and drawing information	Complete 10 checks and the guided response.	Graphical communication during project development Outcomes: INT5-COM-01, INT5-DES-01	Check 10 responses and the guided response.
22	Project/folio	Dimensions, symbols and scale	Complete 10 checks and the guided response; save linked folio evidence.	Graphical literacy for industrial communication Outcomes: INT5-COM-01, INT5-DES-01	Check 10 responses, the guided response and the folio.
23	Practical	Cross-checking the original plan	First 20 min: complete 10 checks and the guided response. Then continue the approved practical stage.	Use project drawings, jigs or templates in production Outcomes: INT5-COM-01, INT5-PRO-01	Check the site response; observe the practical and one quality point.
24	Practical	Weeks 9-10 production	Continue approved stage; follow plan/SOP; check fit, accuracy or surface.	Safe workshop practices during timber production Outcomes: INT5-SAF-01, INT5-PRO-01	Observe setup, approved process, skill, quality and clean-down.
25	Practical	Weeks 9-10 evidence	Finish current stage; photograph a checkpoint; record any problem/response; clean down.	Quality checks before, during and after production Outcomes: INT5-EVL-01, INT5-INP-01, INT5-PRO-01	Check the photo, quality note and problem-response record.
26	Site/theory	Third-angle projection	Complete 10 checks and the guided response.	Graphical communication during project development Outcomes: INT5-COM-01, INT5-DES-01	Check 10 responses and the guided response.
27	Project/folio	Line and view relationships	Complete 10 checks and the guided response; save linked folio evidence.	Graphical communication during project development Outcomes: INT5-COM-01, INT5-DES-01	Check 10 responses, the guided response and the folio.
28	Practical	Isometric communication	First 20 min: complete 10 checks and the guided response. Then continue the approved practical stage.	Graphical literacy for industrial communication Outcomes: INT5-COM-01, INT5-DES-01	Check the site response; observe the practical and one quality point.
29	Practical	Weeks 11-12 production	Continue approved stage; follow plan/SOP; check fit, accuracy or surface.	Safe workshop practices during timber production Outcomes: INT5-SAF-01, INT5-PRO-01	Observe setup, approved process, skill, quality and clean-down.
30	Practical	Weeks 11-12 evidence	Finish current stage; photograph a checkpoint; record any problem/response; clean down.	Quality checks before, during and after production Outcomes: INT5-EVL-01, INT5-INP-01, INT5-PRO-01	Check the photo, quality note and problem-response record.

Teacher to confirm before use: Periods 21-30 practical activity, materials, equipment, supervision, current risk controls and any formal assessment conditions.

Teaching program | Periods 31-40

10 x 60-minute lessons. Site/theory and Project/folio labels link to the relevant website destination.

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
31	Site/theory	Researching a personal emblem	Complete 10 checks and the guided response.	Design factors and specifications for the project Outcomes: INT5-DES-01, INT5-COM-01	Check 10 responses and the guided response.
32	Project/folio	Developing three emblem concepts	Complete 10 checks and the guided response; save linked folio evidence.	Create, modify and refine project designs Outcomes: INT5-DES-01, INT5-COM-01	Check 10 responses, the guided response and the folio.
33	Practical	Criteria, selection and refinement	First 20 min: complete 10 checks and the guided response. Then continue the approved practical stage.	Evaluate design quality, function and aesthetics Outcomes: INT5-DES-01, INT5-EVL-01	Check the site response; observe the practical and one quality point.
34	Practical	Weeks 13-14 production	Continue approved stage; follow plan/SOP; check fit, accuracy or surface.	Safe workshop practices during timber production Outcomes: INT5-SAF-01, INT5-PRO-01	Observe setup, approved process, skill, quality and clean-down.
35	Practical	Weeks 13-14 evidence	Finish current stage; photograph a checkpoint; record any problem/response; clean down.	Quality checks before, during and after production Outcomes: INT5-EVL-01, INT5-INP-01, INT5-PRO-01	Check the photo, quality note and problem-response record.
36	Site/theory	Observing practical progress	Complete 10 checks and the guided response.	Testing, quality assurance and quality control Outcomes: INT5-INP-01, INT5-EVL-01	Check 10 responses and the guided response.
37	Project/folio	Recording quality evidence	Complete 10 checks and the guided response; save linked folio evidence.	Document, reflect on and evaluate project development Outcomes: INT5-COM-01, INT5-DES-01	Check 10 responses, the guided response and the folio.
38	Practical	Action and next-step reflection	First 20 min: complete 10 checks and the guided response. Then continue the approved practical stage.	Project-management strategies for project development Outcomes: INT5-DES-01, INT5-COM-01	Check the site response; observe the practical and one quality point.
39	Practical	Weeks 15-16 production	Continue approved stage; follow plan/SOP; check fit, accuracy or surface.	Safe workshop practices during timber production Outcomes: INT5-SAF-01, INT5-PRO-01	Observe setup, approved process, skill, quality and clean-down.
40	Practical	Weeks 15-16 evidence	Finish current stage; photograph a checkpoint; record any problem/response; clean down.	Quality checks before, during and after production Outcomes: INT5-EVL-01, INT5-INP-01, INT5-PRO-01	Check the photo, quality note and problem-response record.

Teacher to confirm before use: Periods 31-40 practical activity, materials, equipment, supervision, current risk controls and any formal assessment conditions.

Teaching program | Periods 41-50

10 x 60-minute lessons. Site/theory and Project/folio labels link to the relevant website destination.

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
41	Site/theory	Function vocabulary	Complete 10 checks and the guided response.	Evaluate design quality, function and aesthetics Outcomes: INT5-EVL-01, INT5-COM-01	Check 10 responses and the guided response.
42	Project/folio	Testing with evidence	Complete 10 checks and the guided response; save linked folio evidence.	Testing, quality assurance and quality control Outcomes: INT5-EVL-01, INT5-INP-01	Check 10 responses, the guided response and the folio.
43	Practical	Planning a functional improvement	First 20 min: complete 10 checks and the guided response. Then continue the approved practical stage.	Create, modify and refine project designs Outcomes: INT5-DES-01, INT5-EVL-01	Check the site response; observe the practical and one quality point.
44	Practical	Weeks 17-18 production	Continue approved stage; follow plan/SOP; check fit, accuracy or surface.	Safe workshop practices during timber production Outcomes: INT5-SAF-01, INT5-PRO-01	Observe setup, approved process, skill, quality and clean-down.
45	Practical	Weeks 17-18 evidence	Finish current stage; photograph a checkpoint; record any problem/response; clean down.	Quality checks before, during and after production Outcomes: INT5-EVL-01, INT5-INP-01, INT5-PRO-01	Check the photo, quality note and problem-response record.
46	Site/theory	Aesthetic vocabulary	Complete 10 checks and the guided response.	Evaluate design quality, function and aesthetics Outcomes: INT5-EVL-01, INT5-COM-01	Check 10 responses and the guided response.
47	Project/folio	Analysing appearance with evidence	Complete 10 checks and the guided response; save linked folio evidence.	Evaluate design quality, function and aesthetics Outcomes: INT5-EVL-01, INT5-COM-01	Check 10 responses, the guided response and the folio.
48	Practical	Final evaluation and reflection	First 20 min: complete 10 checks and the guided response. Then continue the approved practical stage.	Document, reflect on and evaluate project development Outcomes: INT5-EVL-01, INT5-COM-01, INT5-DES-01	Check the site response; observe the practical and one quality point.
49	Practical	Weeks 19-20 production	Continue approved stage; follow plan/SOP; check fit, accuracy or surface.	Safe workshop practices during timber production Outcomes: INT5-SAF-01, INT5-PRO-01	Observe setup, approved process, skill, quality and clean-down.
50	Practical	Weeks 19-20 evidence	Finish current stage; photograph a checkpoint; record any problem/response; clean down.	Quality checks before, during and after production Outcomes: INT5-EVL-01, INT5-INP-01, INT5-PRO-01	Check the photo, quality note and problem-response record.

Teacher to confirm before use: Periods 41-50 practical activity, materials, equipment, supervision, current risk controls and any formal assessment conditions.
